

Overdream, Navigator

Now the time has come
Now we say goodbye
Enter the maze of life
Out of the dark
Into the light

Now the night fell down
Save us from all our sins
Find a way through the mist
Far from the past
Groping in time

Until your feet bear
Until you breathe air
Down in the cave of haze
Down in the well of fate

Follow your dreams
Prophet in tears
New day on the rise
Glory to the skies
Follow your dreams
Prophet in tears
Listen to your soul
Love will guide you home

Carry the cross for us
Hope shall defeat your fears
Bravery sets you free
Strengthen your heart
Open your mind

Now the time has come
Now we say goodbye
Enter the maze of life
Out of the dark
Into the light
