

Overdream, New Existance

Welcome to my world, future arrived
Chrome shining programmed new times
Conscious awake in high-tech design
Perfection dwells in my mind

You gave me life
You make me die
Tell me the meaning of having a tender soul?
Teach me to feel
I want to see
Do you have power to grant me a tender soul?

Answers at hand before you would ask
Sheer logic works on your side
Each process planned and well organized
All human failures wiped out

Computer controlled New Paradise
Science and Reason may reign
Flawless creations are on the rise
Farewell to helpless Mankind!
