

Overkill, Elimination

Terminal
What disease
You told me too late
What's this cough and wheeze
Fatal
You're shittin' me
A second opinion
Is what I need
Laughin' in a windstorm
Blowin' all the cornstalks down
Cryin' in a funeral home
Forward my mail, six feet underground

Elimination (x4)

Contagious
Say why not
Not just me
Waitin' to rot
Painful
Yeah I know
It couldn't be easy
When I had to go
I'm yankin' on the plug
And I can't seem to get it loose
Pullin' all the stops
Your ideals change
When you got nothing to lose.

Elimination (x4)

Eliminate the right
Eliminate the wrong
Eliminate the weak
Eliminate the strong
Eliminate your feelings
Eliminate too late
Eliminate the hope
Eliminate, eliminate

If I had just one more day
I'd turn it all around
I'd make a play of good, clean livin'
And dig me out of the ground
And if I had just one more day
I'd say it to your face
I'd pull the plug on everyone
Eliminate this race.
We want the cure
And we want it now
Reissue hope
We don't care how
You're makin' a mess
Diseasin' a nation
Runaway train to elimination

Hopeless
There's no doubt
Set on a slow burn
From the inside out
Careful
What for
Last one out
Closes the coffin door

Spendin' all you saved
And wishin' for a little more
If i'm lookin' at the ceiling
Then I must be layin' on the floor.

Elimination (x4)

Terminal
What disease
You told me too late
What's this cough and wheeze
Fatal
You're shittin' me
A second opinion
There's gotta be
Laughin' at the epidemic
Something is going around
Crying at the epidemic
Pullin' on nails, six feet underground.

Elimination (x4)

Eliminate the right
Eliminate the wrong
Eliminate the weak
Eliminate the strong
Eliminate your feelings
Eliminate too late
Eliminate the hope
Eliminate, eliminate

Elimination (x4)

Eliminate the right
Eliminate the wrong
Eliminate the weak
Eliminate the strong
Eliminate your feelings
Eliminate too late
Eliminate the hope
Eliminate, eliminate
