

Overkill, Undying

Wake up baby, daddy's comin' to crack your skull in two
Hit you like a hammer baby, down the play a fool

No to the kicking!
No more to say!
No having just one meaning!
Nothing left to say
No way

Surface the anger
Through immortality
Should you be, undying?
You never were, undying

Wake up break down daddy's comin', all you heard is true
So bite your lip and shut your mouth, it's no longer up to you

No to the licking!
No more to say!
No leavin' you alone...
Nothing more to say!
No way! no

Surface the anger
Immortality
Should you be, undying?
Undying

No! for! give! ness!
No! more! to! say!
No way... no

Surface the anger
Immortality
You never were, undying?
Undying
Undying, never be undying
You never were, undying
You never seem, undying
How can you be? undying...
