

# Owen, In The Morning, Before Work (Live)

I eat with these crooked teeth  
Tomato soup and grilled cheese  
But you already know that because you used to dine with me  
Do you remember?

I listen to my same old cds  
New Order & Morrissey  
But you already know that because you used to ride with me

I thought I'd be singing a different tune by now  
But the song about you keeps coming out

I sleep in these dirty sheets  
A blanket between my bony knees  
But you already know that because you used to crawl in bed with me the morning before work

Put your hands on my back  
Kiss the back of my neck

I thought I'd be singing a different tune by now  
But the song about you keeps coming out  
I'd hoped to be singing to someone new by now  
But the songs about you keep coming out
