

# Owl City, Dear Vienna

I regarded the world as such a sad sight  
Until I viewed it in black and white  
Then I reviewed every frame and basic shape  
And sealed the exits with caution tape  
Don't refocus your eyes in the darkness  
And don't remember this place unless  
I describe all the things that you cannot see  
And we'll unravel the mystery

Farewell, all my friends  
In textbooks, I'm going home  
'Cause my blood cells cannot depend  
On the weather in photographs

There's a light show out my window  
Somewhere way up there  
Dear Vienna, are you singing?  
Dear Vienna, are you swinging?  
Dear Vienna, we were happy like the shades of May  
When we got carried away

I was so far out of place  
Watching those stars in outer space  
'Cause I am so far from where you are
