

# Ozark Mountain Daredevils, It's How You Think

(GUITAR && STRINGS INTRO)

there are people livin' in poverty  
their lives are just misery  
can't get enough relief  
there are children needing some food to eat  
shoes on their little feet  
lookin' to you and me

why do we look away  
think it will go away today  
I think it's only fair  
that we should all be asked to share  
(STRINGS && KEYBOARDS DITTY)

there are men among us who rule our land  
and though they're just fools in bands  
hold us all in their hands  
there are people preaching their gods to me  
saying that I can't see  
yet they give me books to read

they say more's wrong than right  
some say more dark than light  
i say it's how you think  
that makes you swim or sink
