

# Ozma, Game Over

you're hot, stop and drop and roll  
i'll jump in the swimming hole so i can hear your cheers  
i've seen all the episodes  
i know all the secret codes so where i go i don't need roads

i'm flying over, over, i'll fly right over you

2P, you take my control  
teach me how to rock and roll or i'll fall down and die

i bet you don't know how to find our extra lives time ninety-nine  
i know you tried but still we died

our game is over, over, this game is overrated, baby  
this game is overrated  
now i'm frustrated  
is there no peace of your heart for a brother?

reset, can't reset the years  
so sad, princess isn't here  
she's hiding out with all my fears

our game is over, over, this game is overrated, baby  
this game is overrated  
over, over, this game is over
