

# Ozma, Wake Up

Take my hand and follow me to bed  
Say you didn't really mean it when you told me to go drop dead  
Smile that smile that only you can smile  
Say you'll love me in the morning after we've slept in a while  
Take my hand and follow me instead  
Say you'll love me in the morning after we've cleared out our heads

Nightmares, they've been plaguing me  
I'm trapped in a fearful mind  
Oh... but only til the morningtime

Wake up and love me, baby  
So what if we fought last night  
We'll start today off right  
Let's put it all behind us  
Do something to help remind us of how we fell in love

Smile that smile we're only here a while  
Say you're never gonna ditch me when true love goes out of style

Nightmares, they've been chasing me  
I'm lost in a labyrinth mind  
Oh... but only 'til the morningtime

Wake up and love me, baby  
So what if we fought last night  
We'll start today off right  
Let's put it all behind us  
Do something to help remind us of how we fell in love

We fell in love
