

Ozzy Osbourne, No Bone Movies

(Daisley - Kerslake - Osbourne - Rhoads)

Silver screen, such a disgrace
I couldn't look her straight in the face
A blue addiction I live in disgust
Degradation, being eaten by lust

No bone movies
No bone movies
No bone movies

Inspiration that's blue and uncut
Can't kick the habit, obsession of smut
Voyeur straining, in love with his hand
A poison passion, a pulsating gland

No bone movies
No bone movies
No bone movies

I shouldn't do it, the guilt tells me why
I just can't stop it, I try and I try
X-rated demon that lives in my head
Hungry for bodge, and he wants to be fed

No bone movies
No bone movies
No bone movies

No, no, no bone movies
No, no, no bone movies
No, no, no bone movies
