

Ozzy Osbourne, Parasite (feat. Zakk Wylde)

I will close your eyes
Send you off with a lullaby
The moon has never seen a darker side
Howling at the sun
I won't hide from anyone
My fingerprints are tattooed on your mind

Mother tried
But everything I do makes her wanna cry
Father, why?
Why are you haunting me every night like a parasite?

A troubled little boy
Murder scene made of broken toys
Never had no love, never had no choice
Yea
Found comfort in my sins
I can't wait for the lights to dim
Impossible to stop when I begin

Mother tried
But everything I do makes her wanna cry, yea
Father, why?
Why are you haunting me every night like a parasite?

Haunting me at night
Like a parasite
Like a parasite

Mother tried
But everything I do just makes her cry
Yea
Father, why?
Why are you haunting me every night like a parasite?
Like a parasite
Like a parasite
Why are you haunting me every night like a parasite?
Like a parasite
Like a parasite
Why are you haunting me every night like a parasite?

I like worms
