

P Diddy, Do You Know?

Then, there are the times in my life
When I feel, trapped
Feel there's, no way out
No escape
To be honest, I don't know where my life is goin
Where I'll end up at
I just don't know

Verse One: Puff Daddy

I looked back and saw the cat focus, took notice
Stayed away from the bogus, til his rise began
Phillies stacked his grand played the brokest
til he seemed hopeless, soon to be the dopest, cat comin
Track stunnin, fame singin, his name ringin
Money starts to pile, honeys start to wild
Top notch drop top make everything he drop hot
He dream, visualize, plot and scheme
Got the cream legally without the beam
Witcha fire eye drive slow, 8-5-0
Jet black tint still, they might know
Who the cat controllin the strings of rap and R&B
Trapped inside of a movie starrin me, so far
Chorus: repeat 2X
