

P. Diddy, So Complete (feat. Cheri Dennis)

[Verse 1]

I remember what you said to me, when you said it to me last night
we was talkin', and you reassured me everythings fine
When I woke up this morning to get some loving from you
I turned to one side, to my suprise, I wasn't layin' next to you (mmmm)
Why don't you get closed to me, I thought it was supposed to be
Me and you, you and me, so complete (so complete)
While you handlin' me this way, what was it?
you was talkin yesterday, yesterday, I could say,
I seemed to be so complete, so complete

[Chorus]

Went away, you said nothing
you didn't, no kiss, no lovin'
you didn't, it's a shame,
but it brings about the weak in me,
brings about the weak in me
you didn't, spend a lifetime with me
you didn't, share things I wan'na see
you didn't, when ever your around me it's so complete

[Verse 2]

So I waited, and I wanted, 'cause I knew you would come
Hours 1, hour 2, hour 3 hours, not at all
If I'm dreaming, wake me up
'Cause I just about had enough, I had enough
I can not see, how would you ever let this happen to me
I still belive, that it was supposed to be
Me and you, you and me, so complete
So complete, so complete
If you saying that you need to leave, then be a man about it
and step to me, step to me, tell me please
and without me it's so complete, so complete

[Repeat Chorus]

[Verse 3]

Won't you tell me right now what you want from me (what you want from me)
'Cause it's been too long that you've held it in baby (held it in, oh)
Thought you where the one but, you just played me (you know you played me)
Now I feel that I'm so incomplete, yeah

[Repeat Chorus (with different variations)]

[Verse 4]

Please, give me the response I need
I want you to complete me, oh baby
Please, give me all the lovin' I need
Promise you will complete me, oh baby
Baby, what more can I say
'Cause I want you to tell me
What it is you wanna do
'Cause I want'a be with you
(be with you...)
