

# Pacewon, No Retreat

Yo.. huh.. yo  
Roc-A-Blok, yo, Pacewon!!  
Yo.. yo.. Outsidadz in the house, huh  
Ruffhouse in the house, yo  
Who else in the house, yo  
Let 'em know.. Pacewon!  
Yo yo yo.. Roc-A-Blok, yo  
Yo yo yo, yo! Huh! Yo!

[Pacewon]  
All y'all call on me like Bell Atlantic  
Pack a four-four, got weed and never panic  
Bout to blow up like a comet hit the planet  
Hold it down singlehanded; Pacewon got the pen play  
Tag my name like El Da Sensei  
Ballin like the Nets, representin NJ!  
Wednesday, I'm out on the block, servin you ten ways  
I'm large and niggaz rubbin it in, like it was Ben\*Gay  
Cop an ounce you roll the whole damn thin, I'm a sess-head  
Your best friend a hydro connect from the West End  
Destined to be a legend; pack a nine millimeter  
weapon three to seven, keep the people steppin  
Huh, hah!! That's the way of the world  
Play and get hurt, deal with the way that it work  
One day you be on top eatin a BLT  
The next day you be broke like TLC

[Chorus: repeat 2X]  
Roll on ya block, handle y'all, battle y'all  
Take you out, put you in my catalogue  
When goin to war, better remember  
No retreat, no surrender

[Pacewon]  
Yo, yo; cool ass cats get hit with mad pressure  
Honey got caught cheatin, her man left her  
Used to be a dimepiece, now she a heffer  
Eatin mad ice cream, drinkin Dr. Pepper  
Think she got the virus, scared to get a checkup  
And even if she found out, it still wouldn't affect her  
She'd kiss you and let you give her hickies from the neck up  
And let you hit the sugar walls off with no protector  
Niggaz go against me and get they neck cut  
Fear the son of man, livin, cashin checks, what?  
I work for the goods I receive  
Only by the sweat of thy brow will you eat

[Chorus]

[Pacewon]  
In my hood it's mad people, deep crews in Regals  
They got tints too dark to see through  
Hebrews own every store, they be hasslin the people  
Used to be coke sniffers, moved up to diesel  
Too much heron could be lethal  
You could tell a fiend those six words, they don't believe you  
If you never heard me before, here's a preview  
Used to be goodie two-shoes, returned evil!  
I'm settin war off, tell your Senator  
No retreat, no surrender  
.. yo, yo, and let me take this time to say  
Roc-A-Blok, Pacewon, we representin!

[Chorus]

{\*ad libs to the end\*}
