

Pacifier, Coming Down

give me a place to shed my skin
there's no point waiting round to begin
cause the more it takes, the more you feel
ain't got much but I know it's real
ain't got time for waste life away

all the people around you
the walls that surround you are comin' down
and the things that you feel
hearts that you steal, they'll be comin' down for love
all the people around you
the walls that surround you are comin' down
and the things that you hide
won't be denied, they'll be comin' down, comin for love

open up and let 'em in
loving something that you can win
cause the more it takes, the more you feel
ain't got much but we know it's real
ain't got time for waste life away

all the people around you
the walls that surround you are comin' down
and the things that you feel
hearts that you steal, they'll be comin' down for love
all the people around you
walls that surround you are comin' down
and the things that you hide
won't be denied, they'll be comin' down, comin for love

now for every boy and every girl
with all the pain and joy in the world
it don't mean nothin' without love
(da da dada dada da da da dada dada da)

all the people around you
the walls that surround you are comin' down
and the things that you feel
hearts that you steal, they'll be comin' down for love
all the people around you
walls that surround you are comin' down
and the things that you hide
won't be denied, they'll be comin' down, comin for love

coming down
