Pacifier, Home

We can't always be together
You gotta pick it up, pick it up again
Things can't always hang together
Because nobody knows
So let's give it a go

Home
You'll be running all the way back home
But nothing's gonna save your soul
You'll be running all the way back home
Home

We can always make things better
When it comes around you gotta nail it down
And this ain't gonna be forever
Because nobody knows
So let's give it a go

Home
You'll be running all the way back home
But nothing's gonna save your soul
You'll be running all the way back home
Home

If there was some way to
Manage this space between us
I find hard to reach
