

Paddy Casey, Rainwater

Mama sayin' now won't you hear the man come with the rainwater
Gonna pass between you and I
Mama sayin' now won't you hear the man come with the panwater
Everytime now your heart runs dry
She's sayin' now won't you put it in your heart now go
Don't be standing around like you just don't know
It's gonna make you cry
She's sayin' now won't you put it in your heart and take it
'Cause I don't know how you're ever going to make it if you just that's why

Hear the man come with the rainwater
Gonna pass between you and I
Mama sayin' now won't you hear the man come with the panwater
Everytime now your heart runs dry
She's sayin' now don't be looking at me, I ain't going nowhere
Take your time now cause I may care when I make you cry

Brother don' t fear the rain, brother don' t fear the rain
