

# Paddy Kelly, Million flies

Wake up afraid, nightmares again  
Haven't slept in three days, the parasite  
attacking me again  
Dramatic by night, paranoia by day  
So I swallow few pills, hoping for the pain to go  
away  
Oh no oh oh oh no, losing my senses  
Oh no oh oh oh no, building up fences  
Talk to myself, what's so ever the case  
No commonsense, no imaging all kind of things  
So lay on my floor, locked in this room  
Taking up in the cokes, seen the world through a  
kaleidoscope  
Oh no oh oh oh no...  
A million flies are on their way and they won't  
go go away  
A million flies are here to stay and they won't  
go go away (2x)  
I wanna go back, back in the room  
See the grave-digger, smiling at me waiting at  
the tomb  
Caught in the trap so help me to laugh  
Cause I'm sick of fighting  
Come and pinch me I'm just dreaming  
Oh no oh oh oh no...  
A million flies... (2x)  
Oh oh oh oh oh oh oh oh oh oh oh oh oh oh oh oh...  
A million flies... (2x)  
And they won't go go away  
No they won't go go, they won't go go away  
A million flies are on their way and they won't  
go go away!
