

Pagan's Mind, Conception (Back To The Magic O

In a trance-like possession, I arose from sleep
Reading pictures and codes that I recall
Complex technical structures appears in my mind
Recess the past, drawing back in time

[Bridge:]
Ascension of my consciousness
Memorize a state ablazed
Rise up to the nebula...

[Chorus:]
Resurrection, my time memories
To the spheres of light

Under oath on this night, I pledged the allegiance
Secret circles of force, an ancient entity
Epileptical ecstasy - equality
Bond of ancestry, henceforth now I'm one

[Bridge:]
Ascending to the seventh star
Memorize a state ablazed
Racing through the cosmic shell...

"Ancient wisdom of Gods
Power of Anathema thee now holds..."

[Chorus:]
Resurrection, my time memories
To the spheres of light
Constellations, echoes in time
Chanting stellar signs

Resurrection, my time memories
To the spheres of light
Constellations, echoes in time
Chanting stellar signs

Resurrection, my time memories
To the spheres of light
