

# Pagan's Mind, Taken

They came from distance far  
Waiting behind the Moonlit sky  
Far Away  
An ancient lifeform built this race  
To call  
Cyanide Aliens

Saved we are  
Taken Far  
Rise of The New Race  
Heavenly Supremacy  
Creating empires to reign  
Eternally and forever more

Like seed in soil mankind is born  
Science bred, constructed DNA  
When we tried to find the key inside the core  
Structure search  
Secret deep inside

Saved we are  
Taken Far  
Rise of The New Race  
Heavenly Supremacy  
Creating empires to reign  
Eternally and forever more

Prevailing Entities  
Precedence of the skies  
Far Away  
They came out from the constellation  
Cyanide (created our species) Aliens

Energy supremacy  
Majesty  
Celesty  
Rise of the new race  
Saved we are  
Taken Far  
Creating empires to reign  
Eternally and for ever more
