

# Pages, Future Street

I'm down on my back, no one beside me, where are the friends I used to know?  
I'm goin', I'm gone, I can't take it anymore, gonna find my way  
Won't you follow me up to Future Street  
Nothing is complete, but we're all together  
Back on my feet is how I'm feelin'  
I've done my time, but that ain't real - it just ain't real  
So no more, come on, I've heard that song, I'm gonna find my way  
Won't you follow me up to Future Street  
It will be complete, up on Future Street  
Come on follow me up to Future Street  
It will be complete, when we're all together  
Hey, come on, come on, I know we'll find a way, discover today  
(Solo)  
I can't call home, there isn't a telephone  
Yeah I've found my way, where I belong  
Won't you follow me up to Future Street  
Nothing is complete, but we're all together  
Come on follow me up to Future Street  
It will be complete, up on Future Street  
Come on follow me up to Future Street  
It will be complete, up on Future Street
