

# Pagoda, E-Cord

Check 1...Check 2...Check 3

Welcome to the E-cord

Why that's a strong boy

Use it what it's used for

Use me what i'm used for

I'm a whore

Reap with the same thing

What the hell I'm gonna sing

Damn I got it rough

blah, blah, things and... stuff

got it real tough

I'm just saying what you're thinking

and you're not thinking much of nothing

You can lead a camel to a well

but you can't make a stubborn bastard drink

You can sit playing show and tell

but you can't make a stubborn brain think

You can listen to all the words

that other people say

You'll just be wasting time

until you figure out your own way

E-cord

Highway walkin' for a spunk

You think it's funny, it's no joke

I'm kickin' a dead snake

give it up, take your stake

and give me a break

You figure out an inch of me

You're played out, belligerent

pipe playing, broken chair

bang on this, show me you care

show me you care...

I'm just saying what you're thinking

and you're not thinking much of nothing

She sat me down on her lap

told me to take a little nap

I woke up in dreams of a different cord

I moved to her from one side to the other
