

# Pain, Breathe

They have destroyed your whole life  
Ever since you were born they've  
Dragged you down

They have decided that you wont  
Have a chance in this shitty world  
not knowing what's on the outside  
Can't understand right or wrong

Breathe in the poisoned air  
&quot;I just wanna die&quot;  
burning eyes filled with dead tears

The world is dying on you  
And you just turning your back  
not knowing what's on the outside  
Poisoning our brainwashed mind  
They have decided that you will die  
A painful death

Breathe the death  
our dying race  
Breathe the death  
Dying race

Breathe...
