

# Palaxy Tracks, Camera (Performed by Roommate)

Camera, I never wanted you focused on my life  
Because I've been around

You set me free, then come take ahold of me  
I'm young but I'm going to try to run when I leave  
So come on and turn back time

You settled for a life that you thought we had  
Set up in the end you'll see that you're not with me

A trailer park, some blood on a welcome mat  
I went and I bought a gun and taught you to run

So choose words wise my sweet  
And hold your ground don't you be the bitter one like I was
