

# Pale Forest, Once Again

Lies!&quot; claimed the liar  
when truth had widened every eye  
History re-written  
once the false was told &quot;goodbye!&quot;

Alone, the once proud shape now stands  
in the shadows of regret  
Onto his trembling hands  
tears are flowing, fate is set

Lost in the hole she had designed  
for someone else to fall into  
Swallowed by the images  
of a consciousness denied

The old colossal birds  
conscious of their might  
Soaring to the sky  
aware of every lie

But soon his lies were told again  
from darkness he was free  
Told to every foe, and friend  
...once again
