Pale Saints, Hunted

never alone sticks fast to him as shadows loom (?) it tracks him everywhere he goes

surgeon's hands the only way to free him from the one he begs will disappear

feels free in his sleep (???) but there no such peace waits for him to awake laughs in his face falls to his embrace

never alone
says to him
shadows long
shadows everywhere
false freedom is sleep (???)
but there's no such peace
waits for him to wake
laughs in his face
falls to him
false freedom is sleep (???)
but there no such peace
waits for him to awake
laughs in his face
falls to his embrace

false freedom is sleep (???) but there's no such peace waits for him to wake laughs in his face falls to him false freedom is sleep (???) but there no such peace waits for him to awake laughs in his face falls to his embrace
