

# Paloma Faith, Love Only Leaves You Lonely

They say it gets better  
But it's bittersweet  
You don't know how it feels  
To sleep like we used to be  
And your smell used to linger  
I need to wash our sheets  
I wonder you'll remember me  
...

Love just left me lonely  
I got nobody to hold my hand  
Love just gave my heart ache  
I wish have a ....

I sleep with a TV on  
And write the saddest songs  
Cigarettes and alcohol  
It become my only escape  
I dream about our picture  
It hurt so much ...  
Even the strongest can break  
...

Love just left me lonely  
I got nobody to hold my hand  
Love just gave my heart ache  
I wish have a ....

I'm left with nothing but a twisted dream  
That must be something

..  
My love  
just left me lonely  
I ain't nobody to call my own  
Oh Lrd just give me,,,
