

# Paloma Faith, 'Til I'm Done

I'm a fighter  
and i made it through  
solid gold survivor  
that's my attitude  
but I didn't know  
I didn't know  
That I had to be your hero  
Baby, don't ask me you be strong for you as well  
Pushed off the edge and now I;m back from hell  
but I didn't know  
I didn't know  
That I had to be your hero

so give me light  
I'm not build to carry us both  
so give me light  
time to reas my weary bones  
so give me light  
you've got to find your won road  
Help me see

just when I thought I'd had enough  
and no more light and no more love  
it's over /2x  
I won't save you when I'm weak  
only got so much left to give  
it's over /2x

til I'm done  
til I'm done  
til I'm done

you look at me and see how much I take  
but with this heart of glass  
I;m about to break  
but I didn't know  
I didn't know  
That I had to be your hero

so give me light  
I'm not build to carry us both  
so give me light  
time to reas my weary bones  
so give me light  
you've got to find your won road  
Help me see

just when I thought I'd had enough  
and no more light and no more love  
it's over /2x  
I won't save you when I'm weak  
only got so much left to give  
it's over /2x

til I'm done  
til I'm done  
til I'm done

whatcha think you never did for me before  
so give me light  
block out the sun, and let the moon fall on the floor  
so give me light  
I am empty ain;t got nothing left to give  
so give me lightand no you ain;t the one I wanna be with

so give me light

just when I thought I'd had enough  
and no more light and no more love  
it's over /2x  
I won't save you when I'm weak  
only got so much left to give  
it's over /2x

til I'm done  
til I'm done  
til I'm done
