

Pam Tillis, Ancient History

We can talk and talk all night
If you want to
That's alright
'Till I heard every word
You got to say

Go ahead and take your time
If you got something on your mind
But it won't change the way I feel, anyway

Chorus:
That's ancient history to me now
Something we don't have to talk about
You know I love you anyhow
That's ancient history to me now

There's a tale you've got to tell
How you stumbled and then you fell
But I guess I knew that all along
And, my love, there's times when we
Are weaker than we'd like to be
And I could tell some stories of my own

CHORUS
