Pam Tillis, Fine, Fine, Very Fine Love

I never knew how good a love could be All I'd ever known was make believe So many times I played the fool Baby, till I met you

Now everything has fallen in place You can tell by the smile on my face For every lonely tear that I've cried I'm that much satisfied

We've got a fine, fine, very fine love We've got a fine, fine, very fine love You know it when you find one, shining like a diamond It's so fine, fine, very fine love

You are more precious to me every day Life is better now in every way You don't have to lay the world at my feet You have made my world complete

We've got a fine, fine, very fine love We've got a fine, fine, very fine love You know it when you find one, shining like a diamond It's so fine, fine, very fine love

I've got no apprehensions You've got the best intentions We've got a, we've got a fine, fine, very fine love

We've got a fine, fine, very fine love We've got a fine, fine, very fine love You know it when you find one, shining like a diamond It's so fine, fine, very fine love
