## Pam Tillis, How Gone Is Goodbye

Baby I've got this sinkin' feeling I've done something I can't undo And I could kick myself from Tennessee to Texas If I just lost the love I found with you So tell me I just gotta know, how too far did I go

And how gone is goodbye Is that last bridge burnin' Is that point of no returnin' What I'm seeing in your eyes How gone, how gone is goodbye

Well I'm afraid that I already know the answer Oh just this once I'd sure like to be wrong And I could wake up in your arms tomorrow morning And live without this deep regret down in my bones Have I pushed you to the limit What's your plan, and am I in it

And how gone is goodbye Is that last bridge burnin' Is that point of no returnin' What I'm seeing in your eyes How gone, how gone is goodbye

Tell me, I've just gotta know, how too far did I go

And how gone is goodbye Is that last bridge burnin' Is that point of no returnin' What I'm seeing in your eyes How gone, how gone is goodbye

How gone is goodbye Have you drawn the final curtain Come on baby, are you certain We can't give it one more try

How gone, how gone is goodbye
