

# Pam Tillis, You Can't Have A Good Time Without

(Lewis Anderson/Lisa Silver/Russell Smith)

You say you're not missin' me darlin'  
I know you are and always will be  
I saw you at the club actin' so in love  
Ah, but that don't mean nothing to me  
'Cause as you danced by, that look in your eye  
Showed me where your heart is secretly  
Guess I'll be seeing you in the middle of the blues  
You can't have a good time without me

You can't have a good time without me  
You're going to see me in your memory  
You're going to hear me in that melody  
You can't have a good time without me

I remember those sweet nights with you dear  
When I had you all to myself  
Now those times are gone, but love still lingers on  
You won't find with anyone else  
Ah, well you may wear a smile, fool yourself awhile  
But your heart and your mind will disagree  
So I'll be seeing you in the middle of the blues  
'Cause you can't have a good time without me

You can't have a good time without me  
You're going to see me in your memory  
You're going to hear me in that melody  
You can't have a good time without me

You can't have a good time  
No you just can't have no fun  
You can't have a good time without me
