

# Panic! At The Disco, Feels like Christmas

[Verse 1]

Santa, baby, please be fast  
Joy to the world and all that jazz  
It's a wonderful life to be happy with the people you love  
Yeah, yeah, yeah  
So fix the shining star for all to see  
Fire up the mistletoe and light the tree  
Ain't no feeling like this, that can get you like the holiday bug  
Oh yeah, yeah, yeah  
So hang the pretty stockings by the chimney with care  
And lay right by the fire, there's a nip to the air  
And celebrate the holiday with presents to spare, oh yeah

[Chorus]

And now it feels like Christmas, nearly every day  
It's like Christmas, we're like children playing  
On Christmas, every step of the way  
When I'm with you, when I'm with you  
It's like Christmas, nearly every day  
It's like Christmas, we're like children playing  
On Christmas, every step of the way  
When I'm with you, when I'm with you, yeah

[Verse 2]

Hark the herald angel sings  
Just hopin' Santa brings her a wedding ring  
There's some beautiful things that she could show 'em off whenever she wants  
Oh yeah, yeah, yeah  
Forget about the heartache, there's so much to be shared  
A million invitations and I'm gonna prepare  
And celebrate the holiday with presents to spare  
Oh, yeah, oh, yeah

[Chorus]

And now it feels like Christmas, nearly every day  
It's like Christmas, we're like children playing  
On Christmas, every step of the way  
When I'm with you, when I'm with you  
It's like Christmas, nearly every day  
It's like Christmas, we're like children playing  
On Christmas, every step of the way  
When I'm with you, when I'm with you

[Outro]

Now it feels like Christmas  
Oh, it feels like Christmas  
Feels like Christmas  
Now it feels like Christmas  
Yeah, it feels like Christmas  
Oh, it feels like Christmas  
Yeah, it feels like Christmas  
Now it feels like Christmas  
Feels like Christmas
