

Pantera, Biggest Part Of Me

Babe

I need you again

It's getting late

I'm getting high

Please let me in

Love

I give you all my love

I just need someone to hold on to

Won't you let me in

Girl

You're the biggest part of me

I need you back in my arms

Girl

You're the biggest part of me

How long will you leave me out here

In the dark?

Another lonely night

Back in silent town

Thinkin' of ways to get you back

In my arms

Lovein' me all the love you can give

But you've got to go

I just can't live

Another day

There's no other way

Girl

You're the biggest part of me

I need you back in my arms

Girl

You're the biggest part of me

How long will you leave me out here

In the dark?

It's a lonely night

Feels like i'm dying inside

All i need is one more chance before I

Lose my mind

[Guitar solo]

Girl

You're the biggest part of me

I need you back in my arms

Girl

You're the biggest part of me

How long will you leave me out here

In the dark?
