

Pantera, New Level

Now a new look in my eyes my spirit rise
Forget the past Present tense works and lasts
Got shit on Pissed on Spit on Stepped on Fucked with
Pointed at by lesser men
(Pre) New life in place of old life Unscarred by trials
(Chorus) A new level of confidence and power

Demanding plea for unity between us all
United stand Death before divided fall
In mock military order
Vulgar Power Impatient Because time is shorter

(Pre) (Chorus)

No fucking surrender Can't lose Life kills
