

# Panzer AG, When Death Embrace Me

"The greatest trick the Devil ever pulled is convincing the world, that he didn't exist."

If I could believe  
Belief would give me comfort  
Believe that what i've done  
Made a difference

That I gave you strength to carry on  
Without me on your side  
That what we have, Will never be forgotten

Will you still be my side?  
When death embraces me?  
Will you give me comfort,  
When death embraces me?  
Will you still remember me,  
When death embraces me?  
Will you taste my one last breath,  
When death embraces me?

I believe in eternity,  
Something's are meant to be  
What if you suddenly change your mind  
And leave me here to suffer

What difference would it make  
If the angels would be laughing,  
Dancing on a grave without a name

All I know  
Is how to live in fear  
That you  
Would ruin my kingdom  
All I know  
Is how to live in fear
