

Panzer AG, When Death Embrace Me

"The greatest trick the Devil ever pulled is convincing the world, that he didn't exist."

If I could believe
Belief would give me comfort
Believe that what i've done
Made a difference

That I gave you strength to carry on
Without me on your side
That what we have, Will never be forgotten

Will you still be my side?
When death embraces me?
Will you give me comfort,
When death embraces me?
Will you still remember me,
When death embraces me?
Will you taste my one last breath,
When death embraces me?

I believe in eternity,
Something's are meant to be
What if you suddenly change your mind
And leave me here to suffer

What difference would it make
If the angels would be laughing,
Dancing on a grave without a name

All I know
Is how to live in fear
That you
Would ruin my kingdom
All I know
Is how to live in fear
