

Paolo Santos, Close

Nothing in life
Holds more power than your smile
I can't describe it,
Even harder to define

Your breath, it soothes me
Your smile, it moves me
Gotta move in, closer to you now.

Nothing can come between us
Nothing can separate us
Nothing can ever break us apart
Well, it only shows
That nothing can keep us from getting close.

In a crowded room
Feels like being miles apart
My eyes on you
Reflects what's deep inside my heart

Your breath, it soothes me
Your smile, it moves me
Gotta move in, closer to you now.

Nothing can come between us
Nothing can separate us
Nothing can ever break us apart
Well, it only shows
That nothing can keep us from getting close.

Your breath, it soothes me
Your smile, it moves me
Gotta move in, closer to you now...!

Nothing can come between us
Nothing can separate us
Nothing can ever break us apart

Nothing can come between us!
Nothing can separate us!
Nothing can ever break us apart!

Well, it goes to show
That nothing can keep us
From getting close

From getting close'
