

# Paolo Santos, Found About You

Found Out About You

All last summer, in case you don't recall,  
I was yours and you were mine  
Forget it all  
Is there a line that I could write  
That's sad enough to make you cry?

And all the lines you wrote to me were lies  
Months roll past the love that you struck dead  
Did you love me only in my head  
the things you said and did to me  
They seem to come so easily

The love I thought I'd won  
You give for free

Whispers at the bus stop  
Well, I've heard about nights out in the school yard  
found out about you  
found out about you

Rumors follow everywhere you go  
When you left and I was last to know  
Your famous now and there's no doubt  
Of all the places you hang out  
They know your name and they know what you're about

Whispers at the bus stop  
Well, I've heard about nights out in the school yard  
Found out about you  
Found out about you

Street lights blink on through the car window  
Time to often on AM Radio  
You know it's all I think about  
I imagining your name drive past your house  
Your boyfriend's over I watch your lights go out

Whispers at the bus stop  
Well, I've heard about nights out in the school yard  
Found out about you  
Found out about you  
Found about you
