

Pap Chanel, Bipolar

J-ree on the beat
I'm that vibe he push up on at 4 am to clear his mind
I see that he try don't tell no lies
So I guess he worth my time
Love to see his soft side, he call me his lil' slime
I appreciate the fact he keep it real instead of lying
We done all been there before
We all done been played
Not ashamed to say that I been cheated on and I stayed
That's why when I act up, you let me have it
You text me a hour later and say
"Girl, you so dramatic"
And I can't argue with you, be mad
But I still miss you
You always make up to me so I never will just diss you
And honestly we made a bond from the very beginning
I ain't gone cap, I found my homie
And I found my best friend, aye
The way you looking in my eyes, I know you wishing, aye
I throw that shit back on ya, I been what you missing
From across the room, I got that boy attention aye
Don't do too much and that only gone make him listen
It can be all so simple, baby
Lala
Boy, that's only if you know I come first
If you can't treat me like the queen I am
Then, boy, we won't work
I should still be on a pedestal when you at your worse, aye
I hate to have honest feelings at a bad time
'Cause I might throw out all your shit just like last time
Don't wanna see all your true colors when you heated
Don't make the only time you say you love me when you cheated
Ah-ah
'Cause we can be better than that
You know I'm different follow suit
'Cause, boy, I'm special like that, aye
Make your effort a reflection how you feel 'bout me
Just do me and don't care how a bitch gone feel bout me, aye
They way you looking in my eyes, I know you wishing, aye
I throw that shit back on ya, I been what you missing
From across the room I got that boy attention, aye
Don't do too much and that only gone make him listen
It can be all so simple, baby
Lala
Boy, that's only if you know I come first
If you can't treat me like the queen I am
Then boy we won't work
I should still be on a pedestal when you at your worst, aye
It could all be so simple
It could all be so simple
It could all be so simple
