Papa Roach, Never Enough

Life's been sucked out of me
And this routine's killing me
I did it to myself, I did it to myself, I said it would not be
Somebody put me out of my misery
Expression, stimulation hallow sense of myself
I did it to myself again
Somebody put me in my place
Never enough
Do I deserve what I got
Now everything's OK, there's nothing wrong with me
This seems unnatural to me I'd say in every way
Someboy kick me in my place
I feel as if I'm running back to where I started
You ask what's wrong with me and I say nothing
Is everything OK? Is something with me
Pushing and pulling feelings eternal
My heart is yours I feel as if I'm running
Life will knock me down
