

# Papa Roach, Singular Indestructable Droid

Blood of my blood, skin of my skin  
A normal human being  
Solder and wires, circuitry  
Far from human beings  
He's sick of this skin, it's time to trade it in  
A galaxy of emotions, your soul is what it costs  
We walk the same path, nobody could get in our way  
Dangerously, we passionately never hesitate  
Keep the soul, that's control  
Keep the soul, (Now you put in the metal) that's control  
S.I.D.  
Biological - spiritual - electrical - digital

S.I.D.  
Willing to make the change  
Surrender the flesh and bones  
Against the grain  
Pushing beyond the limits of ourselves  
This body is just a cage  
You're dead and you're in a grave  
We're losing our minds, that's just fine  
Living forever  
Keep the soul, that's control  
Keep the soul, (Now you put in the metal) that's control

Bleed out my blood, skin off my skin  
Solder the wire, transformation  
Take my body and release me from this cage  
You can't put a spirit in a grave
