

# Papas Fritas, Live By The Water

We've been living in the city such a long time  
Maybe we should live by the water  
I'll shape up and you'll fill out and we could buy a house  
Maybe even have us a daughter  
Cause the city brings the man out in the man  
And it makes it hard for me to understand  
Your feelings  
I'm so tired of catching trains and coming home late  
I might even try and cook dinner  
I'll make contacts in the trees the boss says I could  
He thinks I should live by the water  
Shut the door and dim the lights and fix yourself a drink  
I got something we should consider  
We've been living in the city such a long time  
Maybe we should live by the water
