

# Paperback Hero, No Long Goodbyes

You speak,  
Open up your mind  
To fight divided lines  
Careless  
With your thoughts  
Face the night alone at cost  
You know what you say  
What is gone  
You take from me  
I know it's over now  
No long goodbyes, so long for now  
I know it's over now, no long goodbyes  
So long for now  
I know it's over now  
Goodbye  
You think all is kind  
And nothing hurts beyond the lines  
Fearless  
But you can't see  
Above the walls of naivety  
You hurt with nothing gained  
And now you're gone  
So far from me  
I know it's over now  
You stay up late at night,  
Face the night alone with pride  
You stay up late and try,  
Face the night alone with pride
