

Papermoon, I Was Blind

You came to say "Hello" and then
You came to say "You Worry, I did, too"
You came to say you're low, complained
That no one knows your story, but I do
I've been through this before, my friend
Can't you see it?
I left it all behind

I was blind
Now I can see
I was worried
Now I'm free
I was numb
Now I can feel
My eyes are wide open
The greatest love I have found is in me

You came to say "Goodbye" and then
You came to say you're leaving, don't you dare!
You came to make me cry, you said
"Don't ever stop believing, cause I care"
Learn to love yourself, my friend, believe me
You'll leave it all behind

I was blind
Now I can see
I was worried
Now I'm free
I was numb
Now I can feel
My eyes are wide open
The greatest love I have found is in me

Don't stop to believe
My eyes are wide open
I found it all in me
My eyes are wide open
My eyes are wide open
I found it all in me

I was blind
Now I can see
I was worried
Now I'm free
I was numb
Now I can feel
My eyes are wide open
The greatest love I have found is in me

In me
The greatest love is in me
In me
I was blind
Now I can see
In me
My eyes are wide open
The greatest love is in me
In me
The greatest love I have found is in me
In me
The greatest love I have found is in me
