Para Para Paradise, Luv To Me

Neon signs were shining bright And in the street lights, you tried to move by I saw your shadow was fading away Well, I lost you all of a sudden

Good-bye my love, I love you too so Before you went away, I didn't know Memories awake, only in my dream When I think I lost them, they all come back to me

You said that you love me Looked at me softly You kissed me and held me all night so tight I know what you're feeling I know what you're dreaming All that you feel and everything in your mind

The memories are so clear So many good years Sweet ones I hold dear Can't hold back the tears I need you by my side These feelings I can't hide So don't walk away, boy Baby won't you bring back

Love me
