

Para Para Paradise, Remember Me

* I feel you so close to me.
I hope you still think of me.
Even I know you found another love.

** You took away my chance to be with you forever,
To be your love and stay together.
You gave away the precious love that we had to somebody else.
Oh baby, I wanna tell you.

*** Remember me,
Remember everything we used to be.
Can you feel my heart pounding, pounding?
Will be forever. Will you
Remember you, remember me?
I remember everything we used to be.
Cause my blood is still pumping, pumping.
Will be forever. Will you remember me?

I need you, but it's okay.
I know that I'll find my way.
I will begin to find another love.

** Repeat

*** Repeat

I feel you.
Even I know....

Be with you forever, to be your love and stay together.
You'll give away the precious love that we had to somebody else.
Oh baby, I wanna tell you.

Remember me.
Can you feel my heart, pounding, pounding?
Remember you, remember me.
Because my blood is still, pumping, pumping.
Will be forever. Will you remember me?

* Repeat

** Repeat

Remember me.
Remember you, remember me?
I remember everything we used to be.
Cause my blood is still pumping, pumping.
Will be forever. Will you remember me?
