

Parachute Youth, Can?t get better than this

Can't get better than this
Can't get better than this
Can't get better than this
Can't get better than this

Can't get better than this
I don't wanna be nowhere else
I said
Can't get better than this
Can't get better than this
Can't get better than this
I don't wanna be nowhere else
Can't get better than this
Can't get better than this

I don't wanna go away
I watched this happen every day
I'm looking at the bright lights
But still I'm chasing fireflies

We don't know where we are
But we're still dancing on a star
Now we're looking at the bright lights
But I was still chasing fireflies

Can't get better than this
I don't wanna be nowhere else
I said
Can't get better than this
Can't get better than this
Can't get better than this
I don't wanna be nowhere else
Can't get better than this
Can't get better than this

I don't wanna go away
I watched this happen every day
I'm looking at the bright lights
But still I'm chasing fireflies

We don't know where we are
But we're still dancing on a star
Now we're looking at the bright lights
But I was still chasing fireflies

Can't get better than this
I don't wanna be nowhere else
I said
Can't get better than this
Can't get better than this
Can't get better than this
I don't wanna be nowhere else
Can't get better than this
Can't get better than this
