

# Paranoid Social Club, Wasted

&lt;!-- We all got wasted  
We got fucked up and wasted wasted  
We got fucked up and wasted

This is for the drunks, the winos,  
The belligerent  
Afterhour all night psychos  
For the party people  
Party crashers  
Lovers with no sequel  
Cause the first hardly mattered  
Lushes lookin lucious  
Torn and tattered  
Hair of the dogs off the chains  
And comin at em  
They're dead to the world  
And they're plastered and pissed  
Each trying to get the girl  
Then just past out stiff

Chorus:  
We got wasted  
We got fucked up and wasted wasted (x3)  
We all got wasted

This is for the porcelain god  
Holy rollers  
Prayin they were only sober  
Surfin on a lonely sofa  
You only live once and then it's over  
And if we drink long enough  
Then we won't get hungover  
Now our heads just pound  
We got to make a toast to the drinks  
That we downed  
Everybody crowd around  
Lift up your cup  
Give it up to the one's fucked up

Chorus

We all got wasted  
On 99 bottles of booze  
I only danced with your friend  
Cause I thought she was you  
We got wasted  
Cause there was nothing to do  
I must've had five drinks  
But I thought it was two  
We got wasted  
Everybody's buyin' a round  
We got wasted  
Off the wall and pass it around  
Hit the pavement  
Everybody's ass on the ground  
We got wasted

Chorus

We all got wasted  
We got fucked up and wasted (x3)  
Wasted  
We all got wasted
