

# Pariah, Powerless

(Kyle Ellison, Sims Ellison)

When I dream there's no screams world crisis--no surprises

Change of scene make me believe

For God and Government--it's one big f\*ckin hypocrisy

It's all black and white

Some speak--we scream

[CHORUS]

Without strength we lose control

Bury the weak, feed on the powerless

Without strength we lose control

Bury the weak, feed on the powerless

Temptation, desire, your suit and tie and your square opinion

Make it clear so I can see

For God and Government--it's one big f\*ckin conspiracy

It's all black and white

[CHORUS]
